

LIVING THE LIFE

BEAUTICONTROL®

Faye Powell

National Executive Director

The life I love...

"I had always lived a great corporate lifestyle, but it was all provided to me by my successful husband," says Faye Powell. "When I started earning my own money through BeautiControl, and got my own company car, my husband loved it all the way to the bank!"

Faye says that her husband was always a "conservative" person when it came to finances and laughs, "He thought money needed to be banked, and I thought it needed to be spent!" She says that she's had a ball for the last 24 years getting to spend her BeautiControl money.

It still makes Faye smile to think of all the wonderful Directors and consultants she has in her unit, and all the trips, diamonds, furs, cars and money they've all enjoyed! "I really smile when I think of how I have helped so many women achieve all of these things through the wonderful

opportunity of BeautiControl," she says.

"I am a very positive person, and I love my job," says Faye. "At the start of my career, I studied all of the positive mental attitude speakers. I am a student of Dr. Napoleon

I am rounding the corner to 80, and I look around at my peers not having very interesting lives. Not me!" she says, "I am going to be out there catching the excitement until I am 125!"

Hill especially. I set goals, make a plan, but most importantly, just decide to do it."

National Executive Director

Faye calls BeautiControl her own 'corporate utopia' because it is so different from the corporate world she was used to. "BeautiControl is simply and totally utopia—a contrast from the high-powered and stressful corporate world of my husband's where everyone always worried about getting fired and was held to corporate hours and the calendar."

Faye knew from a young age that she would be a teacher, having come from a family of teachers. Her expectation was, that like her family, she would have to stretch a dollar to earn a living being a teacher. "The big surprise is that I am still teaching and making a lot of money, and get to purchase wonderful products!"

Faye's next goal is to keep the excitement going, and getting everyone she can to join her in BeautiControl's great opportunity. "I am rounding the corner to 80, and I look around at my peers not having very interesting lives. Not me!" she says, "I am going to be out there catching the excitement until I am 125!"

heart & soul

I am grateful for this company. I am so happy to be working with a company by women and for women. Kristi Hubbard and Melissa Brisbois are an inspiration to all women. And I am so grateful to Mari and Miguel Santo Domingo, and all of my Directors and Consultants who have helped me get where I am today.
